Dear Sir,

As you are well aware that our organization started its journey 25 years earlier in the field of Surgical/Medical Disposables with a commitment to provide quality products conforming to international standards at a reasonable price in the country as well as abroad.

Our journey towards this direction would have been incomplete without your guidance time to time for establishing and upgrading quality assurance systems, practices and product certifications at our organization.

It is because of your excellent services and guidance for obtaining various certifications like WHO-GMP, ISO, CE which has given our organization recognition at national and international level.

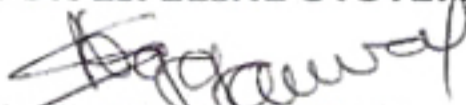

We thank you very much for your sincere efforts, involvement and appreciate your concern and support for our organization to make us achieve our goal and commitment towards quality.

We look forward to have your guidance and your sincere involvement as usual in future which only will help us to move further.

With Endless Regards

Ever Sincerely Yours

FOR LIFELINE SYSTEMS PVT LTD
